Release Notes
November 1, 2017

GOLFNOW®

Features and Enhancements

We have some new enhancements that have been made to the GolfNow One (G1) platform (below):

NEW! Green fee rate tool

- The green fee rates tool has recently undergone some changes, and can still be found under the following: **System Settings > Tee Sheet Settings > Green Fee Rates.**
- Changes include:
 - Added the ability to select a “Default” greens fee rate to be applied any time a customer is added to the tee sheet.
 - Added ability to set up multiple availabilities for a single greens fee rate, allowing multiple price changes throughout the day for the same green fee rate.
 - Created the functionality to “override” a greens fee rate, which automatically overrides the regular price to a different amount for a specific time or date range.
 - Added ability to include a cart within the greens fee rate price.
 - Added the capability to tether a greens fee rate to a membership, allowing member green fee rates to automatically populate on the tee sheet for members.

The screenshot shows the 'Green Fee Rates' configuration interface. It includes fields for Department (Green Fees), Display Name (Public Standard), Start Date (2017-01-01), Category (Public), Holes (18 Holes), and End Date (2017-12-31). Below these is an 'Availability' table with columns for Name Suffix, Start, End, and days of the week (Mon-Sun). Three rows are shown: AM Rate (07:00-11:59), PM Rate (12:00-17:59), and Twilight Rate (18:00-21:59). Each row has numerical values for each day and a red 'X' icon in the Sun column.

Multiple availabilities per greens fee

This screenshot shows the 'Green Fee Rates' configuration interface with a red box highlighting the 'Include cart' dropdown menu. The dropdown is set to 'Volunteer Cart Fee - \$5.00'. Other fields include Department (Green Fees), Display Name (Employee Discount 9 Hole), Start Date (1 Sep 2017), Category (Employee), Holes (9 Holes), and End Date (31 Dec 2017). The 'Availability' table below shows a single row for 'AllDay' with a start time of 5:00 am and an end time of 11:59 pm, with values for each day of the week.

Associating a cart to greens fee

Reporting

- NEW!** Added a Credit Account Activity report that can be used to track all credit account transactions for a given location.
- Users can now see their Open Cash Registers on the Cash Register Close Report to prevent missing any open drawers.

Rainchecks

- NEW!** Added the ability to issue and redeem Rainchecks with Cart Fees, as well as Green Fees.

Orders

- Added a “Place Order” button that gives the customer the option to not print or email a receipt.
- Removed the “Add More Payment” button that still showed at the bottom of closed Orders.

End of day (EOD)

- Added the ability to change Cash Register Close display to a blind close for a given Area. This toggle is available under the Area settings.

Memberships

- Added the ability to see the expiration date of a customer’s membership when viewing the customer in the Tee Sheet Blade.
